

Schrodinger's Cat – To observe is to change

Tue., May 18, 2010

Demo cat in the box

Point is, observing changes what's observed

As much philosophy as it is physics

Other examples:

House burns down – before you see it, is it still OK

Jane Goodall – Did her observations change gorilla society

Male G – “Hot lady, better than my mate”

Female G – “Hmmm, I like that blouse”

Anthropologists observing aborigines
