

Wingbusters: Warbirds & flying instruction

Sunday August 27 Wingbusters held their annual Warbirds Fly In. Lots of great model planes of the WWI and WWII eras, and a couple more recent jets. Most of them flew including a fantastic-looking B-25, a P-51 Mustang and an awesome looking and sounding Ju-87 Stuka Dive Bomber. The day was perfect, clear skies and very little wind.

On Friday, the 25th, a couple cadets came over for some instruction and practice flying. Shannon is getting near expert and flew the one of the club member's Delta Vortex. Cameron is getting better with every session.

Also on Warbirds day the Club holds breakfast at the field ... an all-you-can-eat feast of scrambled eggs, sausage, bacon and pancakes. Later in the day they served dogs and a clam dish.
